

WEARING TOO MANY HATS CAN BE A PROBLEM FOR BUSINESS OWNERS

Does this describe you: first you wear a manager's hat, next a customer service rep's, later a delivery boy's? Why not toss your bookkeeping hat to *All In One Accounting*? Owning a business can be very rewarding, but make no mistake, the demands on your time can be incredibly stressful. Knowing when and how to add resources to handle the necessary tasks isn't always easy. That's where we come in...

OUR STRATEGIC NEW SERVICE: "BOOKKEEPING BY REMOTE"

We furnish you with an *All In One* staff bookkeeper who handles your work expediently off-site. You and your bookkeeper share files electronically, by fax or by mail. The bookkeeper processes a few tasks, or every accounting task, in response to your exact needs. No more. No less. Your routine reports will be generated to you monthly or weekly, as needed.

We call it "Bookkeeping by Remote" because you're in control of the off-site bookkeeping. It frees you to pursue the more creative and technical aspects of your profession that only you can provide. And it's hassle-free, providing incredible convenience for your growing enterprise.

Say Hello to Savings, Stability and Satisfaction!

- ✓ With our customized monthly service plan, you receive the services of an in-house financial staff without the full-time cost.
- ✓ We attract and hire only the most exceptional staff – dependable, knowledgeable people who know numbers and work well with people. We add to a company's stability by providing the certainty of a trusted relationship over time.
- ✓ Your satisfaction is guaranteed. Join our roster of clients who trusted *All In One Accounting* under similar circumstances, and benefited.

Call us for a customized accounting solution today and see how wearing fewer hats really does fit you better.
